

FREE NON-COMMERCIAL LICENSE

The free for personal / non commercial use license is provided with free downloads of fonts.

It allows unlimited use of the font(s) on all personal CPUs for non-commercial uses (i.e. no-profit projects, student work, pro-bono assignments).

Notice: If you're an individual and plan to use our fonts for commercial projects, you should buy a personal commercial license.

A company, studio or corporation that wants to make the fonts available to many users should either buy a volume license (which is calculated as a discount on many single licenses) or a worldwide license.
