

ANITTA

license agreement

Anitta is a group project developed for the Typography class in the Design course of the Universidade Federal de Santa Catarina. As students we love to find free fonts for download to use in our academic projects, so we decided to publish it as a freeware typeface. It means that you can use it for non-commercial and commercial work.

It's free, but since we worked hard to make it there are some things we would be very pleased if you did:

1. Credit our font in your work
2. Send us a sample of your project using our font (we just want to see all the cool things people can do with it)

And also there are some things we ask you from the bottom of our hearts NOT TO DO:

1. Alter this font
2. Redistribute it
3. Sell it

Thank you!
