**THE QUICK BROWN FOX**  
**JUMPS OVER THE LAZY DOG**

Dreamwish, originally released in late 2002, is a bubbly, jumbly, cartoonish font with a dreamy feel. The font is intended to be used in conjunction with the star characters which are in the number glyphs. The font isn't a full character set and is therefore free of charge. Hope you like it!

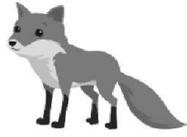

### **This is a FREE font.**

It contains two sets of uppercase letters, and stars as numbers.  
You can view the full character map at [QuickBrownFoxFonts.com](http://QuickBrownFoxFonts.com).

My free fonts may be distributed through any media, as long as this PDF file is included, you are not selling the fonts, and you don't claim them as your own.

Whatever you use the font for, I'd love to see what you come up with! Feel free to contact me through my website and tell me about your project.

**Thank you kindly!**
