

Spiders and Sparrows Font [DEMO VERSION]
Created by Quick Brown Fox Fonts / Lauren C. Brown
QuickBrownFoxFonts.com

Spiders and Sparrows
The quick brown fox jumps
over the lazy dog.

Spiders and Sparrows is a playful, mischievous, slightly gothic and somewhat creepy font. It looks good in title case, all caps, or all lowercase. Smaller sizes look creepier.

This is a DEMO version of the font.
It includes only uppercase and lowercase letters.
You can use the demo version for personal use.

I highly recommend that you download the LATEST version
of this font on my website, QuickBrownFoxFonts.com.

My demo fonts may be distributed through any media, as long as this PDF file is included, you are not selling the fonts, and you don't claim them as your own.

Here's how to get the full version:

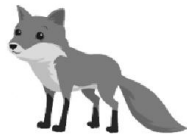

The full version of the font, which can be purchased at QuickBrownFoxFonts.com, also contains numbers, most punctuation, most accent characters, and many symbols.

You can view the full character map at QuickBrownFoxFonts.com, as well as licensing options.

Whatever you use the font for, I'd love to see what you come up with! Feel free to contact me through my website and tell me about your project.

Thank you kindly!
